Hey one other item to the agenda—

How to deal with the ESA issue and our Implementation tools. Separate Tools from conventional pollutants—we hate this—any other options?

Hi Melissa,

A call from 9-12 works for us and your proposed agenda looks good as well. We'll all be in Dan's office (Angela, Dan, myself and maybe Lon). Do you want to just call us there at 206-553-1855?

Thanks,

Matthew Szelag | Water Quality Standards Coordinator

That is fine—Here is what I am thinking of as a draft agenda---

- Walk through key decisions again and make sure we understand where EPA is
- Communication on those areas in the documents we prepare for the draft rule material
- Very high level walk through of the Cost Benefit Analysis Outline , the Least Burdensome analysis outline and the Small Business Economic Impact out line
- Touch base on the “the other lawsuit”
- Cue up a set of questions/discussion points that involve the criteria, 303d process and how to have those conversations in a similar fashion to what we have done with WQ Standards and understand the interplay between them

Hi Melissa,

I just talked to Angela and we would prefer doing this as a call because we’re not certain we’ll need the full amount of time. If you’re thinking something differently, please let us know.

Thanks,

Matthew Szelag | Water Quality Standards Coordinator

Yes lets meet---we can do by phone if it works better. Really want to make sure we are understanding where you are as we move into final stretch.....

Hi Melissa,

Just left you a voicemail message with a little more detail. We are wondering if we should postpone this Friday’s in-person meeting in light of the delay in your release date? We are still happy to come down if you have some discussion topics in mind. If we end up rescheduling the in-person, we’d like to still have a call with you all (maybe an hour or hour and a half) to discuss a couple things. Let us know, thanks.

Angela Chung
Water Quality Standards Unit Manager

Hi Melissa,

Did we ever decide on a location for next Friday? We can come down if that's easier, I think it's our turn. Also, if possible, we'd like to reserve some time to discuss the NWEA litigation during the meeting.

Thanks,

Matthew Szelag | Water Quality Standards Coordinator

Hi Melissa,

Thanks. Looks like the only date that will work for us is 3/21. I'll put a hold on everyone's calendars here. Where would you prefer to meet?

Subject: schedule next meeting

Hi Melissa,

I was hoping we can schedule another meeting on the calendars prior to rule proposal going out. I think we discussed this at the last meeting, but don't think we ever followed up.

Would you be able to send us a few dates? You probably have a better sense of the right timing (and probably have more meetings to work around!).

Thanks,
